Kluwer Law International is happy to announce the third edition of Van Dijk & Van Hoof's classic work: Theory & Practice of the European Convention on Human Rights. The developments which have taken place under the Convention since the second edition was published have been numerous & comprehensive, & the Convention has gained a central position in the legal systems of many European countries. Three Protocols have been added to the Convention; the number of Parties to the Convention has grown from twenty-two to no less than thirty-six; & the case-law concerning the Convention has increased significantly. Like its predecessors, this third edition offers a full description of the present procedural practice & case-law of both the European Commission & the European Court of Human Rights, & is an indispensable guide. Protocol No. 11 to the Convention, which will enter

into force by the end of 1998, will drastically change the supervisory system under the Convention, establishing one Court. This new Court will also perform the present functions of the Commission & it is expected that it will be guided by the Commission's procedures & working methods, & by its case-law concerning admissibility. This new edition will therefore remain relevant for the practice & case-law of the new Court for many years to come. This long-awaited new edition has been fully updated and revised by the original authors as well as two new members of the author team. Based on many years of active research and teaching it takes the discipline's most difficult aspects and makes them accessible and interesting.
