When Darkness Falls: Free eBook Dec 27 2019 Book description to come.
A Room with a View Illustrated May 24 2022 "A Room with a View is a 1908 novel by English writer E. M. Forster, about a young woman in the restrained culture of Edwardian era England. Set in Italy and England, the story is both a romance and a humorous critique of English society at the beginning of the 20th century. Merchant Ivory produced an award-winning film adaptation in 1985. The Modern Library ranked A Room with a View 79th on its list of the 100 best English-language novels of the 20th century (1998)."

Automate the Boring Stuff with Python, 2nd Edition Apr 30 2020 The second edition of this best-selling Python book (over 500,000 copies sold!) uses Python 3 to teach even the technically uninclined how to write programs that do in minutes what would take hours to do by hand. There is no prior programming experience required and the book is loved by liberal arts majors and geeks alike. If you've ever spent hours renaming files or updating hundreds of spreadsheet cells, you know how tedious tasks like these can be. But what if you could have your computer do them for you? In this fully revised second edition of the best-selling classic Automate the Boring Stuff with Python, you'll learn how to use Python to write programs that do in minutes what would take you hours to do by hand--no prior programming experience required. You'll learn the basics of Python and explore Python's rich library of modules for performing specific tasks, like scraping data off websites, reading PDF and Word documents, and automating clicking and typing tasks. The second edition of this international fan favorite includes a brand-new chapter on input validation, as well as tutorials on automating Gmail and Google Sheets, plus tips on automatically updating CSV files. You'll learn how to create programs that effortlessly perform useful feats of automation to:

- Search for text in a file or across multiple files
- Create, update, move, and rename files and folders
- Search the Web and download online content
- Update and format data in Excel spreadsheets of any size
- Split, merge, watermark, and encrypt PDFs
- Send email responses and text notifications
- Fill out online forms

Step-by-step instructions walk you through each program, and updated practice projects at the end of each chapter challenge you to improve those programs and use your newfound skills to automate similar tasks. Don't spend your time doing work a well-trained monkey could do. Even if you've never written a line of code, you can make your computer do the grunt work. Learn how in Automate the Boring Stuff with Python, 2nd Edition.

Books and Culture Aug 15 2021 If the writer who ventures to say

something more about books and their uses is wise, he will not begin with an apology; for he will know that, despite all that has been said and written on this engrossing theme, the interest of books is inexhaustible, and that there is always a new constituency to read them. So rich is the vitality of the great books of the world that men are never done with them; not only does each new generation read them, but it is compelled to form some judgment of them. In this way Homer, Dante, Shakespeare, Goethe, and their fellow-artists, are always coming into the open court of public opinion, and the estimate in which they are held is valuable chiefly as affording material for a judgment of the generation which forms it. An age which understands and honours creative artists must have a certain breadth of view and energy of spirit; an age which fails to recognise their significance fails to recognise the range and splendour of life, and has, therefore, a certain inferiority.

Deep Learning Oct 05 2020 An introduction to a broad range of topics in deep learning, covering mathematical and conceptual background, deep learning techniques used in industry, and research perspectives.

"Written by three experts in the field, Deep Learning is the only comprehensive book on the subject." —Elon Musk, cochair of OpenAI; cofounder and CEO of Tesla and SpaceX Deep learning is a form of machine learning that enables computers to learn from experience and understand the world in terms of a hierarchy of concepts. Because the computer gathers knowledge from experience, there is no need for a human computer operator to formally specify all the knowledge that the computer needs. The hierarchy of concepts allows the computer to learn complicated concepts by building them out of simpler ones; a graph of these hierarchies would be many layers deep. This book introduces a broad range of topics in deep learning. The text offers mathematical and conceptual background, covering relevant concepts in linear algebra, probability theory and information theory, numerical computation, and machine learning. It describes deep learning techniques used by practitioners in industry, including deep feedforward networks, regularization, optimization algorithms, convolutional networks, sequence modeling, and practical methodology; and it surveys such applications as natural language processing, speech recognition, computer vision, online recommendation systems, bioinformatics, and videogames. Finally, the book offers research perspectives, covering such theoretical topics as linear factor models, autoencoders, representation learning, structured probabilistic models, Monte Carlo methods, the partition function, approximate inference, and deep generative models. Deep Learning can be used by undergraduate or graduate students planning careers in either industry or research, and by software engineers who want to begin using deep learning in their products or platforms. A website offers supplementary material for both readers and instructors.

A House Divided Oct 17 2021 The first book in the epic suspenseful romantic fantasy Astoran Asunder series. Contains mature content. Cianne Wyland leads a double life. No one in House Staerleigh would suspect that the meek woman on whom they heap their disdain is a gatherer of secrets. Determined to uncover whether the House's upper echelon—including her own father—are engaging in illicit activities in a grasp for control of the House, Cianne has made an art of slipping into their homes to rifle through their private lives. Kila an Movis is an Enforcer. Gods-gifted with an extraordinary ability to piece together physical clues, he's entrusted with protecting the vulnerable from crime. But his habit of expressing his opinions a little too freely earned him a nine-year banishment to the wilds, and he's determined to be more circumspect upon his return to the trade city. When someone close to Cianne dies and Kila is called out to investigate the scene, her world and his collide once more. His long absence hasn't driven the memory of him from her heart, but the woman he encounters isn't the child he remembers. Unwilling to trust anyone else, Cianne enlists Kila's help. The deeper they dig, the more secrets they unearth about her father, the other House members, and her entire life—until Cianne discovers that House Staerleigh is built on a foundation of lies.

The Bay And Padie Book Apr 10 2021 The Bay And Padie Book This book is a result of an effort made by us towards making a contribution to the preservation and repair of original classic literature. In an attempt to preserve, improve and recreate the original content, we have worked towards: 1. Type-setting & Reformatting: The complete work has been re-designed via professional layout, formatting and type-setting tools to re-create the same edition with rich typography, graphics, high quality images, and table elements, giving our readers the feel of holding a 'fresh and newly' reprinted and/or revised edition, as opposed to other scanned & printed (Optical Character Recognition - OCR) reproductions. 2. Correction of imperfections: As the work was re-created from the scratch, therefore, it was vetted to rectify certain conventional norms with regard to typographical mistakes, hyphenations, punctuations, blurred images, missing content/pages, and/or other related subject matters, upon our consideration. Every attempt was made to rectify the imperfections related to omitted constructs in the original edition via other references. However, a few of such imperfections which could not be rectified due to intentional/unintentional omission of content in the original edition, were inherited and preserved from the original work to maintain the authenticity and construct, relevant to the work. We believe that this work holds historical, cultural and/or intellectual importance in the literary works community, therefore despite the oddities, we accounted the work for print as a part of our continuing effort towards preservation of literary work and our contribution towards the development of the society as a whole, driven by our beliefs. We are grateful to our readers for putting their faith in us and accepting our imperfections with regard to preservation of the historical content. HAPPY READING!

Persuasion Jun 12 2021 Anne Elliot was once engaged to Captain Frederick Wentworth, but she broke off the engagement when a family friend persuaded her that it was an imprudent match. Several years later, Captain Wentworth returns from the Napoleonic Wars, but his seeming indifference towards Anne convinces her that it is too late to win him back. Meanwhile, the charming Mr. Elliot—Anne's cousin and her father's heir to Kellynch Hall—plots to marry her to ensure he remains the sole heir to the family estate. Will Captain Wentworth rediscover his feelings for Anne, or will she be forced to marry the scheming Mr. Elliot? English author Jane Austen wrote this novel of manners in 1816, one year before her death at the age of 41. This unabridged version of her last completed novel is taken from the 1818 copyright edition.

The History of the Manners and Customs of Ancient Greece Jul 02 2020 This is a reproduction of the original artefact. Generally these books are created from careful scans of the original. This allows us to preserve the book accurately and present it in the way the author intended. Since the original versions are generally quite old, there may occasionally be certain imperfections within these reproductions. We're

happy to make these classics available again for future generations to enjoy!

The War of the Worlds Illustrated Jan 20 2022 The War of the Worlds is a science fiction novel by English author H. G. Wells, first serialised in 1897 by Pearson's Magazine in the UK and by Cosmopolitan magazine in the US. The novel's first appearance in hardcover was in 1898 from publisher William Heinemann of London. Written between 1895 and 1897, it is one of the earliest stories to detail a conflict between mankind and an extraterrestrial race. The novel is the first-person narrative of both an unnamed protagonist in Surrey and of his younger brother in London as southern England is invaded by Martians. The novel is one of the most commented-on works in the science fiction canon.

Middlemarch May 12 2021 Middlemarch By George Eliot Middlemarch is a novel by George Eliot (pen name of Mary Ann Evans). It was first published in 1871 to 1872. It is set in the 1830s in Middlemarch, a fictional provincial town in England, based on Coventry. Widely seen as Eliot's greatest work, it is considered by many scholars to be one of the most important novels of the Victorian era We are delighted to publish this classic book as part of our extensive Classic Library collection. Many of the books in our collection have been out of print for decades, and therefore have not been accessible to the general public. The aim of our publishing program is to facilitate rapid access to this vast reservoir of literature, and our view is that this is a significant literary work, which deserves to be brought back into print after many decades. The contents of the vast majority of titles in the Classic Library have been scanned from the original works. To ensure a high quality product, each title has been meticulously hand curated by our staff. Our philosophy has been guided by a desire to provide the reader with a book that is as close as possible to ownership of the original work. We hope that you will enjoy this wonderful classic work, and that for you it becomes an enriching experience.

Intro to Bluetooth Low Energy Aug 22 2019 Bluetooth Low Energy (BLE) is an exciting new technology that was introduced in 2010. It targets applications in the Internet of Things (IoT) space. With the recent release of Bluetooth 5 in late 2016 and Bluetooth mesh in mid-2017 (which builds on top of BLE), Bluetooth is now more capable than ever of becoming the standard wireless protocol used in many IoT applications including: smart homes, smart cities, medical devices, wearables, and sensor connectivity. Learning a new technology is always challenging and usually comes with a learning curve. Some technologies are easier to learn than others. Unfortunately, Bluetooth Low Energy (BLE) can be one of those hard ones. The lack of good resources including blogs, tutorials, and up-to-date books that help a beginner to learn BLE, makes the task even more difficult. That is, in fact, the primary goal of this book: to provide you with a complete understanding of the basics and core concepts of BLE that you can learn in a single weekend. Here's a tiny list of the benefits this book will help you achieve: Understand what Bluetooth Low Energy is and how it compares to Bluetooth Classic. Become better informed about the use cases where BLE makes the most sense. Learn all about Bluetooth 5 and the new features it brought us. Understand how two BLE devices discover and connect with each other. Understand how BLE devices exchange and transfer data between each other. Fully grasp concepts such as Peripherals, Centrals, Advertising, Connections, GATT, GAP, and many others. Learn about the newly released Bluetooth mesh standard. What readers are saying "I bought your BLE book and I love it. I am an iOS developer and your material helped me understand some of the finer points of BLE" -Alex Carrizo, Senior iOS Developer, iOS SME at Mobile Apps Company Topics include: The basics of Bluetooth Low Energy & Bluetooth 5.0. The difference between BLE and Bluetooth Classic (the one used for streaming audio and connecting headsets). The benefits and limitations of using BLE and which use cases make the most sense for BLE. The difference between a BLE Central and a BLE Peripheral. All about GATT (Generic Attribute Profile) and GAP (Generic Access Profile). How Bluetooth 5 achieves double the speed, four times the range, and eight times the advertising capacity.- How BLE devices advertise and discover each other. How two BLE devices connect to each other. How BLE devices exchange and transfer data between each other. Profiles, Services, and Characteristics. How secure BLE is, and how BLE devices secure the communication channel between them. The different connection and advertising parameters and what each of them means. An introduction to Bluetooth mesh. About the Author Mohammad Afaneh has been an embedded engineer for over 10 years. Since 2014, he has focused solely on learning and developing Bluetooth Low Energy applications. He even spent days and weeks reading through the 2,800+ page Bluetooth specification

document looking for answers to questions he couldn't find answers to in other books and resources. He shares everything he knows about development for BLE technology at his website www.novelbits.io, and via training classes around the world.

Nineteen Eighty-Four Dec 31 2022 *Nineteen Eighty-Four* (1949) was George Orwell's final novel and was completed in difficult conditions shortly before his early death. It is one of the most influential and widely-read novels of the post-war period.

The Care of Books Nov 29 2022

Books and Bookmen Oct 29 2022 The Countryman. "You know how much, for some time past, the editions of the Elzevirs have been in demand. The fancy for them has even penetrated into the country. I am acquainted with a man there who denies himself necessities, for the sake of collecting into a library (where other books are scarce enough) as many little Elzevirs as he can lay his hands upon. He is dying of hunger, and his consolation is to be able to say, 'I have all the poets whom the Elzevirs printed. I have ten examples of each of them, all with red letters, and all of the right date.' This, no doubt, is a craze, for, good as the books are, if he kept them to read them, one example of each would be enough." The Parisian. "If he had wanted to read them, I would not have advised him to buy Elzevirs. The editions of minor authors which these booksellers published, even editions 'of the right date,' as you say, are not too correct. Nothing is good in the books but the type and the paper. Your friend would have done better to use the editions of Gryphius or Estienne." This fragment of a literary dialogue I translate from 'Entretiens sur les Contes de Fees,' a book which contains more of old talk about books and booksellers than about fairies and folk-lore. The 'Entretiens' were published in 1699, about sixteen years after the Elzevirs ceased to be publishers. The fragment is valuable: first, because it shows us how early the taste for collecting Elzevirs was fully developed, and, secondly, because it contains very sound criticism of the mania. Already, in the seventeenth century, lovers of the tiny Elzevirian books waxed pathetic over dates, already they knew that a 'Caesar' of 1635 was the right 'Caesar,' already they were fond of the red-lettered passages, as in the first edition of the 'Virgil' of 1636. As early as 1699, too, the Parisian critic knew that the editions were not very correct, and that the paper, type, ornaments, and FORMAT were their main attractions. To these we must now add the rarity of really good Elzevirs.

The Rust Programming Language (Covers Rust 2018) Feb 06 2021 The official book on the Rust programming language, written by the Rust development team at the Mozilla Foundation, fully updated for Rust 2018. The Rust Programming Language is the official book on Rust: an open source systems programming language that helps you write faster, more reliable software. Rust offers control over low-level details (such as memory usage) in combination with high-level ergonomics, eliminating the hassle traditionally associated with low-level languages. The authors

of The Rust Programming Language, members of the Rust Core Team, share their knowledge and experience to show you how to take full advantage of Rust's features--from installation to creating robust and scalable programs. You'll begin with basics like creating functions, choosing data types, and binding variables and then move on to more advanced concepts, such as: · Ownership and borrowing, lifetimes, and traits · Using Rust's memory safety guarantees to build fast, safe programs · Testing, error handling, and effective refactoring · Generics, smart pointers, multithreading, trait objects, and advanced pattern matching · Using Cargo, Rust's built-in package manager, to build, test, and document your code and manage dependencies · How best to use Rust's advanced compiler with compiler-led programming techniques You'll find plenty of code examples throughout the book, as well as three chapters dedicated to building complete projects to test your learning: a number guessing game, a Rust implementation of a command line tool, and a multithreaded server. New to this edition: An extended section on Rust macros, an expanded chapter on modules, and appendixes on Rust development tools and editions.

Call of the Wild Aug 27 2022 Jack London wrote this celebrated novel in 1903. It's considered one of his best stories and has become one of the world's most popular American classics. The call of the wild is the thrilling story of Buck, a domestic dog from California kidnapped and thrust into the harsh, physical world of the Yukon, a land of danger and ferocity, a land of wolves, blizzards, and treacherous frozen rivers that swallow up entire dog teams. Here is where Buck must learn to survive. He must become as wild and vicious as the wilderness that surrounds him ... or die!

The Book of Briars Jan 08 2021 No one remembered the books but her. Alistair Mead only remembers one thing from the year she went missing as a child: A series of books that don't exist. After years of searching, she stumbles on a clue that proves the books were real but were somehow erased from existence. Desperate for answers, Alistair is drawn into an ancient literary underworld whose members believe she might be the key to unraveling the books, and the altered history of the world. Ben Kriminger hasn't written in a year. Traumatized by the fanatical reaction to his novel about unsolved disappearances, Ben is still trying to undo the bloody damage caused by his writing and the unhinged reader who couldn't tell fiction from fact. When book pages about a young woman named Alistair begin showing up on Ben's doorstep, he finds that her story mirrors events in his own ill-fated novel. Still unsure if what he's reading is fiction, Ben can't help but act when the pages depict the same people who destroyed his life turning their twisted attention on Alistair. As their parallel paths spiral toward an impossible revelation, Ben and Alistair learn that seeing this story through may damn the world to darkness before the final page is turned. **The Book of Briars** is a reality-smashing tale of fiction and fate, a story that explores what happens when the lines that separate memory, magic, and the mundane world are shattered beyond repair.

The Cruise of the Gyro-car Sep 27 2022

Darkfever Mar 29 2020 MacKayla Lane's life is good. She has great friends, a decent job, and a car that breaks down only every other week or so. In other words, she's your perfectly ordinary twenty-first-century woman. Or so she thinks . . . until something extraordinary happens. When her sister is murdered, leaving a single clue to her death—a cryptic message on Mac's cell phone—Mac journeys to Ireland in search of answers. The quest to find her sister's killer draws her into a shadowy realm where nothing is as it seems, where good and evil wear the same treacherously seductive mask. She is soon faced with an even greater challenge: staying alive long enough to learn how to handle a power she had no idea she possessed—a gift that allows her to see beyond the world of man, into the dangerous realm of the Fae. . . . As Mac delves deeper into the mystery of her sister's death, her every move is shadowed by the dark, mysterious Jericho, a man with no past and only mockery for a future. As she begins to close in on the truth, the ruthless Vlane—an alpha Fae who makes sex an addiction for human women—closes in on her. And as the boundary between worlds begins to crumble, Mac's true mission becomes clear: find the elusive Sinsar Dubh before someone else claims the all-powerful Dark Book—because whoever gets to it first holds nothing less than complete control of the very fabric of both worlds in their hands. . . . Look for all of Karen Marie Moning's sensational Fever novels: DARKFEVER | BLOODFEVER | FAEFEVER | DREAMFEVER | SHADOWFEVER | ICED | BURNED | FEVERBORN | FEVERSONG
