Conversations with God for Teens Oct 25 2019  
Suppose you could ask God any question and get an answer. What would it be? Young people all over the world have been asking those questions. So Neale Donald Walsch, author of the internationally bestselling Conversations with God series had another conversation. Conversations with God for Teens is a simple, clear, straight-to-the-point dialogue that answers teens questions about God, money, sex, love, and more. Conversations with God for Teens reads like a rap session at a church youth group, where teenagers discuss everything they ever wanted to know about life but were too afraid to ask God. Walsch acts as the verbal conduit, showing teenagers how easy it is to converse with the divine. When Claudia, age 16, from Perth, Australia, asks, "Why can't I just have sex with

everybody? What's the big deal?", the answer God offers her is: "Nothing you do will ever be okay with everybody. 'Everybody' is a large word. The real question is can you have sex and have it be okay with you?" There's no doubt that the casual question-and-answer format will help make God feel welcoming and accessible to teens. Conversations with God for Teens is the perfect gift purchase for parents, grandparents, and anyone else who wants to provide accessible spiritual content for the teen(s) in their lives.

Madeline had been trained to grow herbs and make medicine by the best herbalists in her community, but in the wild Oregon Outback finding a husband is the only proper occupation for a single lady. Madeline left the Shaker community, but her devotion to God and the principle of celibacy, are unchanged. Finding a husband to direct her life is her last priority. But her sister and guardian is just as stubborn as Madeline. Madeline will marry, whether she wants to or not. Unfortunately for Madeline, finding a

husband isn't simply a matter of falling in love. Some men are off limits, no matter how they make your heart thunder.

The God Game Nov 30 2022 What is the "answer to everything"? Pythagoras provided a glimpse of the answer 2,500 years ago when he declared, "All things are numbers". Mathematics is literally everything. Unlike science, mathematics offers certainty and absolute knowledge. Mathematics unifies science, religion and metaphysics and is the true Grand Unified Theory of Everything. No experiment can ever contradict a mathematical truth. Mathematics is the ONLY answer to everything. Mathematics is the ONLY subject inherently about eternal, Platonic truth. The God Series, starting with The God Game, reveals the astonishing power of ontological mathematics to account for everything. Isn't it time to convert to the world's only rational religion - Illuminism, the Pythagorean religion of mathematics that infallibly explains all things and guarantees everyone a soul that's not only eternal and indestructible but also has the capacity to make each of us a true God? Isn't it time to become Illuminated?

The War God's Own Jul 15 2021 THE ROAD HOME Bahzell Bahnakson of the Horse Stealer hradani never wanted to be a champion of the War God. Unfortunately, Tomandk had insisted. Even more unfortunately, Bahzell's own sense of responsibility hadn't let him say, "No." Which was how he found himself in the Empire of the Axe, where even people who didn't actively hate hradani regarded them with suspicion and fear. Of course, that was only the start of his problems. Next, there was the Order of Tomanak, many of whom were horrified by the notion that their deity had chosen a hradani as a champion . . . and intended to do something about it. And assuming he survived that, he had to go home-across three hundred leagues of bitter

winter snow-to face a Dark God who threatened to destroy all hradani. Throw in the odd demon and brigand ambush, and add a powerful neighboring kingdom with no intention of letting Bahzell (or anyone else) save his people, and you have the makings of a really bad day. But one thing Bahzell has learned a champion of Tomanak does what needs doing. And the people in his way had better move. At the publisher's request, this title is sold without DRM (Digital Rights Management).

The Last Man Who Knew Everything Jan 21 2022 Three hundred years ago, it was possible to have read all of the important books in the world. Most intelligent people

of the time believed the world was a living organism. Matter was alive (hylozoism), or mind was everywhere (panpsychism), or God was everywhere (theism), or God and Nature were one (pantheism). A hundred years later, the world was viewed as a vast, purposeless machine. Either there was no God (atheism), or he was a remote God of Laws (deism) and not of revelation and salvation. Leibniz was the last genius to know everything and to accept that the universe was an organism – a mathematical organism. Leibniz was the secret author of the Illuminati 's Grand Unified Theory of Everything based on “ nothing ” . He created an entire universe out of a “ Big Bang ” singularity comprising infinite “ monads ” (zeros), each with infinite energy capacity. This is the story of the first mathematical Theory of Everything. Leibniz 's monads have one last, incredible secret to reveal: they are souls!

How to Become God Sep 16 2021 Is it possible to become God? Is the unconscious mind nothing other than the Heaven gate? This is the extraordinary account of the ancient and controversial secret society known as the Pythagorean Illuminati of how it is possible for everyone to attain divinity. There are two vast obstacles to overcome, one relating to a lack of consciousness, and the other to an over-identification with consciousness. The followers of the Abrahamic religions are "bicameral", meaning they are highly submissive and

obey "voices" emanating from their unconscious. Atheistic scientific materialists are overly rational and deny the existence of anything other than their mortal ego-consciousness. They have cut themselves off from the most mysterious domain in existence: that of the two numbers zero and infinity. This may be the most revolutionary book in history, presenting a unique and breathtaking view of reality. If you cannot find the answers to your profoundest questions in the God Program, you will find them nowhere.

Parables from God Series - The Difference Between Hearing and Listening Mar 23 2022 In a short simple parable, this book relates in an understandable way, what it takes to be a hearer only, as opposed to what it takes to be, and the rewards of becoming a listener.

The God Factory Feb 07 2021 Illumination, the religion of the Ancient Order of the Illuminati, began with Pythagoras and is the world's only "Logos" religion, i.e. a rational religion founded on mathematics, science and philosophy. It has no connection with Mythos religions such as Judaism, Christianity and Islam. Illumination is the Grand Unified Theory of Everything, linking science, religion, psychology, philosophy and even the "paranormal". It does so via the only medium of truth and absolute knowledge: mathematics, which Pythagoras enigmatically declared to be the arche, the fundamental substance of existence. Whereas science is based on

mathematical materialism, Illumination uses Leibnizian mathematical idealism. This is one of a series of books providing the ultimate answers to the nature of existence.

Rivka turned and ran. "Ari!" she screamed. "Help!" She raced outside into the sunlight, sprinted madly through a dark grove of trees with gnarled branches. Her heart pounded in her chest. Her ragged breath rasped in her ears. Was he following? Faster! Tears fogged her eyes. Her leather sandals tore at her feet. Trying to look back over her shoulder, she tripped and fell. Dust flew up all around her. Coughing, she clambered to her feet and dared to look back. The man was nowhere in sight. Rivka panted until she caught her breath. Her left wrist throbbed from the fall. She massaged it while she squinted into the trees, afraid that the man might be lurking in the shadows. Nothing happened. Finally, she turned around to get her bearings. She blinked twice and then stared. Across a small valley massive stone walls rose. Herodian masonry. Jerusalem limestone. Towering white walls. It looked like... But that was impossible. She closed her eyes, breathed deeply three times, and opened them again. Absurd. Had she gone loony or something? Rivka had visited the Temple Mount twice and studied hundreds of pictures during three years of graduate school. But she had never seen it looking like this. So pure. So spotless. So new. The Science of Monads Nov 26 2019 Scientific materialism isn ' t the only type of science. Leibniz, the great German genius, was a champion of scientific idealism. The atoms in his system weren ' t physical, but mental, and he named them monads. A present-day Leibniz might say, " All things are made from mental atoms, which are simple mathematical substances from which all compounds are mathematically derived via the laws of ontological mathematics. Monads are expressed through constant motion, and that mental motion is what we call thinking. Pure thinking takes place in an immaterial, mathematical frequency domain outside space and time. By virtue of Fourier mathematics, frequency functions can be represented in a spacetime domain, and this domain is what is known as the physical world of matter. It is just a certain mode of mental functionality. There is no such thing as scientific matter. There is only mind. A mind is a monad, and monads are all there are. Everything is an expression of monadic, mental mathematics. "

The God Secret Jun 01 2020 Even God has an ultimate secret, and, since the dawn of time, humanity has sought to discover it. Our finest minds, noblest souls and most adventurous spirits have quested for the Holy Grail,

the Philosopher ' s Stone and the mystical Blue Flower of transcendent perfection. Prometheus stole the fire of the gods to give to humanity, and suffered a terrible punishment for his beneficence and audacity. Faust obsessively pursued the infinite and unreachable, and was willing to pay any price, even if it cost him his soul. Lowest humanity gets on its knees and belly to “ God ” . Highest humanity will never rest until it knows the Mind of God, and takes possession of the key to the innermost secrets of existence. This book provides the astonishing answer to the supreme question – what is the meaning of life? The answer is as wondrous as it ought to be. Despite appearances, we really do live in the best of all possible worlds, one that is gradually turning us into exactly what we want to be – the Gods themselves.

The God Chasers Dec 08 2020 A God chaser is a person whose passion for God's presence presses him to chase the impossible in hopes that the uncatchable might catch him. A child chases a loving parent until, suddenly, the strong arms of the father enfold the chaser. The pursuer becomes the captive; the pursued the captor. Paul put it this way: "I chase after that I may catch that which apprehended me" (Phil. 3:12). Job was a God chaser. He said, "Oh that I knew where I might find Him!" David was one; he said, "My soul followeth hard after Thee." Paul was one too: "That I may know

Him..." The passionate paths of God chasers can be traced across the pages of history from Moses the stutterer, David the singer, and Paul the itinerant preacher, to contemporaries like A.W. Tozer, Leonard Ravenhill, and countless others who share one common bond: an insatiable hunger to know their Lord. These are people whose relentless, passionate pursuit of Christ often made them appear foolish in the eyes of others. Yet, having tasted His goodness and glimpsed the invisible, they could be satisfied with nothing less. Add your name to the list...become a God chaser. Who know? You might be one whom He catches.

Defending God Dec 20 2021 In the ancient Near East, when the gods detected gross impropriety in their ranks, they subjected their own to trial. When mortals suspect their gods of wrongdoing, do they have the right to put them on trial? What lies behind the human endeavor to impose moral standards of behavior on the gods? Is this effort an act of arrogance, as Kant suggested, or a means of keeping theological discourse honest? It is this question James Crenshaw seeks to address in this wide-ranging study of ancient theodicies. Crenshaw has been writing about and pondering the issue of theodicy - the human effort to justify the ways of the gods or God - for many years. In this volume he presents a synthesis of his ideas on this perennially thorny issue. The result sheds new light on the history of the human struggle with

this intractable problem.

Parables from God Series - Parable of the Two Sons  
Apr 23 2022 Parable of the Two Sons, is about how we have responded to doing the works which Father God requires of each of us. Using my own example, I trace the words and actions of the son who in the parable given by Jesus, said, "I will not work in your vineyard." Then later repented and went to work. It is a good parable to cause self examination, and perhaps motivate people to take action in doing their Fathers' work.

The answer may be lying beside it—a dying Guest who brings devastating news for Edward and for Planet Earth. As more unexplained phenomena spring up around the globe—a granite

mountain appearing in Australia, sounds emanating from the earth ' s core, flashes of light among the asteroids—it becomes clear to some that the end is approaching, and there is nothing we can do. In *The Forge of God*, award-winning author Greg Bear describes the final days of the world on both a massive, scientific scale and in the everyday, emotional context of individual human lives. Facing the destruction of all they know, some people turn to God, others to their families, and a few turn to saviors promising escape from a planet being torn apart. Will they make it in time? And who gets left behind to experience the last moments of beauty and chaos on earth? Nominated for the Nebula, Hugo, and Locus Awards, *The Forge of God* is an engrossing read, breathtaking in its scope and in its detail.
