NEW YORK TIMES BESTSELLER • The third book in an epic series about a girl who will travel beyond the stars to save the world she loves from destruction from the author of the Reckoners and Mistborn trilogy, and the Stormlight Archive. Spensa's life as a Defiant Defense Force pilot has been far from ordinary. She proved herself one of the best starfighters in the human enclave of Detritus and she saved her people from extermination at the hands of the Krell—the enigmatic alien species that has been holding the planet captive for decades. What's more, she traveled light-years from home as an undercover spy to infiltrate the Krell's Superiority, where she learned of the galaxy beyond her small, desolate planet home. Now, the Superiority governing galactic alliance bent on dominating all human life—has started a galaxy-wide war. And Spensa has seen the weapons they plan to use to end it: the Delvers. Ancient, mysterious alien forces that can wipe out entire planetary systems in an instant. Spensa knows that no matter how many pilots the DDF has, they can't defeat this predator. Except that Spensa is Cytonic. She faced down a Delver and saw something eerily familiar about it. And maybe, if she's able to figure out what she is, she could be more than just another pilot in this unfolding war. She could save the galaxy. The only way she can discover what she really is, though, is to leave behind all she knows and enter the Nowhere. A place from which few ever return. To have courage means facing fear. And this mission is terrifying. Offers an overview of how to plan the perfect vacation, including tips on saving money, ratings for area hotels, and evaluations of attractions by age group.
