What Longfellow Heard Aug 03 2020 Henry Wadsworth Longfellow was enormously famous in his day. Adults and children celebrated his poems, both in America and abroad. He was the first American poet admitted into the Poets' Corner of Westminster Abbey in England and was renowned for such works as "Hiawatha," "Paul Revere's Ride," "Evangeline," "Tales of a Wayside Inn" and others. However, his amazing life was wrought with trials and heartaches during an era when America was laboring to grow up without destroying itself in the process. *What Longfellow Heard* is a powerful telling, in many of the words and musings of the poet himself, of his tragic quest for love and family, his longing for art and fame, and his heartbreaking loss. Discover how his art and faith wrestled within him while he desperately tried to make peace with the tumult of his times. Experience the tragedy of his first marriage, his long road to recovery, and his passion for the woman he pursued for seven years while the nation fractured and his poetry soared. *What Longfellow Heard* is a novel with profound relevance to our modern-day polarization, increasingly clouded national identities, and the universal aching for peace, joy, and purpose in the midst of conflict and confusion.

Warriors of the Storm Apr 30 2020 They were Thieves for Freedom. The golden ring - a sacred object

to the inhabitants of Janipur - was one of five. Together they were the key to control of the Master System and the only hope of humanity taking charge once more of its own destiny. Hunted through the galaxy, the rebels' chances of survival, let alone success, were desperately slim. The three had been transmuted into Janipurians - four-legged, hairy creatures - and had infiltrated the complex, ritualised society of this long-ago terraformed planet. And with them was Vulture, the artificially created shapechanger who could become, in body and mind, any organic creature. Vulture it was who now watched the solemn ceremony as the ring was brought out and displayed to the crowd, who understood that not just the Master System but the whole population would be hunting down the stealers of the ring.

Storm Warriors; Or, Life-boat Work on the Goodwin Sands Apr 22 2022

The Storm Before the Calm Jul 02 2020 *One of Bloomberg's Best Books of the Year* The master geopolitical forecaster and New York Times bestselling author of *The Next 100 Years* focuses on the United States, predicting how the 2020s will bring dramatic upheaval and reshaping of American government, foreign policy, economics, and culture. In his riveting new book, noted forecaster and bestselling author George Friedman turns to the future of the United States. Examining the clear cycles through which the United States has developed, upheaved, matured, and solidified, Friedman breaks down the coming years and decades in thrilling detail. American history must be viewed in cycles—particularly, an eighty-year "institutional cycle" that has defined us (there are three such examples—the Revolutionary War/founding, the Civil War, and World War II), and a fifty-year "socio-economic cycle" that has seen the formation of the industrial classes, baby boomers, and the middle classes. These two major cycles are both converging on the late 2020s—a time in which many of these foundations will change. The United States will have to endure upheaval and possible conflict,

but also, ultimately, increased strength, stability, and power in the world. Friedman's analysis is detailed and fascinating, and covers issues such as the size and scope of the federal government, the future of marriage and the social contract, shifts in corporate structures, and new cultural trends that will react to longer life expectancies. This new book is both provocative and entertaining.

Firestorm Nov 05 2020 "Frightening...Firestorm comes alive when Struzik discusses the work of offbeat scientists." --New York Times Book Review "Comprehensive and compelling." --Booklist "A powerful message." --Kirkus "Should be required reading." --Library Journal In the spring of 2016, the world watched as wildfire ravaged the Canadian town of Fort McMurray. Firefighters named the fire "the Beast." It seemed to be alive with destructive energy, and they hoped never to see anything like it again. Yet it's not a stretch to imagine we will all soon live in a world in which fires like the Beast are commonplace. In *Firestorm*, Edward Struzik confronts this new reality, offering a deftly woven tale of science, economics, politics, and human determination. It's possible for us to flourish in the coming age of megafires--but it will take a radical new approach that requires acknowledging that fires are no longer avoidable. Living with fire also means, Struzik reveals, that we must better understand how the surprising, far-reaching impacts of these massive fires will linger long after the smoke eventually clears.

Heroes of the RNLI Dec 27 2019 This maritime history recounts dramatic tales of rescue at sea by the brave members of the 200-year-old Royal National Lifeboat Institution. Whenever vessels have foundered off the coasts of Britain, there have been brave individuals willing to give their all to save those in peril. But in 1823, Sir William Hillary decided that this impromptu approach was not enough. He believed that many more lives could be saved by the establishment of a national, organized rescue service. His idea was realized the following year with the Royal National Lifeboat Institution. From the days of oar-powered open boats to modern, hi-tech vessels, rescuers have battled storms and unimaginable conditions, risking – and sometimes forfeiting – their own lives in efforts to save others. The most outstanding of these operations led to the awarding of gold medals for gallantry, the RNLI version of the Victoria Cross. Drawn from archives, contemporary newspaper accounts and genealogical records, this book looks not just at the details of the rescues, but into the people behind them.
