The Road Apr 23 2022 NATIONAL BESTSELLER • WINNER OF THE PULITZER PRIZE • A searing, post-apocalyptic novel about a father and son's fight to survive, this "tale of survival and the miracle of goodness only adds to McCarthy's stature as a living master. It's gripping, frightening and, ultimately, beautiful" (San Francisco Chronicle). A father and his son walk alone through burned America. Nothing moves in the ravaged landscape save the ash on the wind. It is cold enough to crack stones, and when the snow falls it is gray. The sky is dark. Their destination is the coast, although they don't know what, if anything, awaits them there. They have nothing; just a pistol to defend themselves against the lawless bands that stalk the road, the clothes they are wearing, a cart of scavenged food—and each other. The Road is the profoundly moving story of a journey. It boldly imagines a future in which no hope remains, but in which the father and his son, "each the other's world entire," are sustained by love. Awesome in the totality of its vision, it is an unflinching meditation on the worst and the best that we are capable of: ultimate destructiveness, desperate tenacity, and the tenderness that keeps two people alive in the face of total devastation. Look for Cormac McCarthy's new novel, The Passenger.

Infection Nov 18 2021 What started as a "flu" outbreak on a military base proves deadlier than Ebola and more contagious than the Spanish Flu. Sympatico Syndrome is unlike anything the world has ever seen. Victims' behavior is changing to accommodate the rapid spread of the virus. Former Navy epidemiologist Cole Evans is well aware of the rare, infectious diseases the military studies. He also

knows, first-hand, the government's stance on sharing information with the public, so if the media has already learned about the disease, then it's far too late to contain the outbreak. Cole's only chance to save his family is to establish a safe haven. Isolated, hard to reach, and with enough space for his brother's family as well, he has the perfect location--if only they can all reach it before they're infected... Get this exciting post-apocalyptic thriller today.

American Cities in Post-Apocalyptic Science Fiction Oct 18 2021 Visions of the American city in post-apocalyptic ruin permeate literary and popular fiction, across print, visual, audio and digital media. **American Cities in Post-Apocalyptic Science Fiction** explores the prevalence of these representations in American culture, drawing from a wide range of primary and critical works from the early-twentieth century to today. Beginning with science fiction in literary magazines, before taking in radio dramas, film, video games and expansive transmedia franchises, Robert Yeates argues that post-apocalyptic representations of the American city are uniquely suited for explorations of contemporary urban issues. Examining how the post-apocalyptic American city has been repeatedly adapted and repurposed to new and developing media over the last century, this book reveals that the content and form of such texts work together to create vivid and immersive fictional spaces in ways that would otherwise not be possible. Chapters present media-specific analyses of these texts, situating them within their historical contexts and the broader history of representations of urban ruins in American fiction. Original in its scope and cross-media approach, **American Cities in Post-Apocalyptic Science Fiction** both illuminates little-studied texts and provides provocative new readings of familiar works such as *Blade Runner* and *The Walking Dead*, placing them within the larger historical context of imaginings of the American city in ruins.

Fight Like a Man Apr 11 2021 As a prepper, Grayson Rowan was prepared for almost anything....anything other than being totally alone when the sh*t hits the fan. While he sat back and watched the United States rattle swords with Korea, play chicken with Russia, and strong-arm China, he felt sure if the lights went out, that he and his family would be ready and safe-whether it was due to a natural disaster or a man-made event. They had everything they needed at their homestead. What he wasn't prepared for, was his family not being home if it ever happened. Olivia Rowan is with her sisters, Gabby and Emma, on a girls-only trip to Myrtle Beach. When chaos erupts and there's no gas, their journey home is a nightmare, filled with predators and danger-and apparently, Olivia hadn't learned a thing her husband tried to teach her. When your neighbors run out of water and turn on each other, what will you do? Jake, a country boy mechanic, never believed in TEOTWAWKI, but he'd heard his brother-in-law preach about it many times. He knew what to do; but he didn't prepare. He lazily left it all up to Grayson-he was the prepper after all. When catastrophe strikes, will he continue to keep his head stuck in the sand while his clueless neighbors destroy each other, and his wife is stuck out on the road; or will he stand up and fight like a man? And if you're alone? Bug in or Bug out? Graysie Rowan, a freshman at University, just wants to go home. When no word comes from the government, and the state capital is overrun with looters, chaos and mayhem, the college administration puts the students on lock-down. But her dad, Grayson, had prepared her for this. Now, if she can only remember what it was he said to do...If they want to survive this post-apocalyptic event, they'll all have to learn to fight like a man. The end came not with boots on the ground, nuclear weapons or an EMP. It snuck in with a quiet clatter at the back door and flipped the switch, covering the states in darkness and sending this family on three divergent

paths that ultimately lead home. When they collide in this surreal and gripping family drama, it won't be without bullets and bloodshed.

One group goes underground while some remains behind to face reality head on by sheer luck the survive the lethal rays." ***** "The characters are written in such a way that I was worried along with them. I definitely don't believe in the apocalypse ?! And in the salvation of all mankind as a super-hero? For such a story, you definitely need a continuation in the form of a series, which the author actually did. It will not be boring!" ***** "This book is adventurous, entertaining, and thought-provoking. I was gripped throughout. The world is real enough to be believable, but at the same time fantastical enough to be intriguing." ***** "I don't usually read post-apocalyptic books but I'm glad I got to read this one. The storyline and characters have been well thought out and I look forward in getting to know the characters more in the next book." ***** "With as many books as I have read over the years, it is rare for me to find a true can't-put-down read. I was up until 4 a.m. when I blearily realized that I had read the book straight through in one sitting. The lost sleep was well worth it. Peter Servidio has a distinctive writing style that uses the history of war and real-world nuclear capabilities to create a frighteningly credible tale of 'what-might-be.' Add to that a taste of H.P. Lovecraft, a dash of Stephen King, and a (small) bit of Tolkien and you have a novel comprised of consummate world-building and detail." ***** "It's an

opening book into a series and is fast paced and easy to read. In this story instead of the population escaping to an orbiting city the principle protagonists live underground. It's told in first person and the jumping off point occurs when a small group sets out to return a newly discovered person to her village. They discover something there that could be a boon to everyone." ***** "The story is engaging and exciting as you follow Loreto, a young explorer from the mine community. It has some of the standard post-apocalyptic elements (scavenging, roving mutants, surviving communities at odds) but the author does a good job telling his story and setting up the sequel. It has shades of *The Road*, *Daybreak 2250 A.D.*, and *The Last She.*" ***** "This book jumps right in, which I appreciate. The author did a very good job of providing background information before going into the present day. This is one of those books that you cannot put down. It leaves you wanting more. The author was very imaginative. Yet, the plot was realistic. If you're looking for an exciting read, definitely check out this book." The China Pandemic Feb 07 2021 ?????????? "Eerily plausible," they said. "Too close to reality..." Originally published six years before the real 2019 coronavirus outbreak, **The China Pandemic** is USA Today best-selling author A.R. Shaw's strikingly foreboding post-apocalyptic thriller novel, which plunges readers into an all-too-realistic alternate history doomsday event that occurs after a weaponized super-virus is unleashed from a lab in China and wipes out most of the world's population. To limit exposure to infected victims of the virus, a kind and empathetic Seattle math professor with limited survival skills escaped deep into the forests of northern Washington State. In his last words to an infected and fading father, Graham promised his dad that he will forego his thoughts of giving up and try to survive, despite the hopelessness and despair that surrounds him. From Graham's

rustic family cabin in the woods, he starts drawing strong and determined survivors to him – an orphaned 4-year-old Korean American boy, a strong Native American woman named Tala, an elderly African American retired police officer with a gift for understanding people... and a group of gritty survivalists without immunity to the killer virus. The China Pandemic is the epic first volume of the imaginative and immersive ‘Graham’s Resolution’ apocalypse survival series, which features a terrifying virus pandemic, compelling and diverse and complex characters, and a powerful battle of good vs evil in a dystopian world of desperation and corruption. "This is a story of hope when humanity is at its worst. Post-apocalyptic fiction at its best!" – Amazon Review Page Up and Order Now.

Most of America has become a wasteland filled with starving bands of people, mobs and gangs. Millions are dead and millions more are suffering, with no end in sight. For Gordon, Samantha, Sebastian, Cruz and Barone, the turmoil and chaos they dealt with in the early weeks after the attack will seem trivial in comparison to the collapse of society that plays out before their eyes. Uncertainty abounds as they all travel different paths in search of a safe place to call home. The only thing that is definite is that *The Long Road* will take its toll on all of them. For readers of *Going Home* by A. American, *Lights Out* by David Crawford, *Lucifer’s Hammer* by Jerry Pournelle and *One Second After* by William Forstchen
