**Tampa Bay Noir** Dec 31 2022 Tampa Bay joins Miami in representing the (alleged) Sunshine State in the Noir Series arena. "At last, the popular Akashic Noir series has adopted the Tampa Bay area...The notion of elevating place to the status of a character in a story, a frequent topic in writers workshops, works to maximum effect. The descriptive forays are full of observations that can only be gleaned by living here." --Tampa Bay Times "A new collection of noir fiction features all sorts of miscreants finding their way through this part of Florida." --Ocala Star Banner "[A] lively collection of superior short stories." --South Florida Sun Sentinel "For too long readers have connected Florida Noir with the admittedly fascinating locales of Miami-Dade County, thanks to a slew of talented and popular writers no doubt, but there's another major metropolitan area on the Gulf Coast that's every bit Miami's equal for bizarre noir. Tampa Bay gets a much-deserved turn in the spotlight with this new collection in the Akashic series, edited by Colette Bancroft and featuring some stellar contributions from writers out of the greater Tampa diaspora, including Michael Connelly, Tim Dorsey, Sarah Gerard, Ace Atkins, and Lori Roy." --CrimeReads, One of the Most Anticipated Crime Books of 2020 "Books can transport us to faraway, exotic places we've never seen, but they can also show us new angles of familiar places we thought we knew. Places closer to home like Hyde Park, Tierra Verde, Davis Islands, Palma Ceia, Clearwater Beach, Pass-a-Grille, Indian Rocks Beach, Westshore, St. Petersburg's 34th Street, Gibsonton, Lake Maggiore, Pinellas Park, Largo, Safety Harbor and Rattlesnake. Those are the local settings--yes, Rattlesnake is a real place!--for the 15 stories collected in Tampa Bay Noir, an anthology of new crime fiction due out in August." --Creative Pinellas "Anyone who lives in the Tampa Bay area knows there are stories of intrigue here, just waiting to be told." --The Gabber "Every classic mystery-fiction theme is represented here--murder, fraud, love, sex, money--and, overall, the writing is top quality. Lovers of short crime fiction should eat this one up." --Booklist "Fifteen tales that reveal the dark side of sunny Tampa Bay." --Kirkus Reviews Akashic Books continues its award-winning series of original noir anthologies, launched in 2004 with Brooklyn Noir. Each book comprises all new stories, each one set in a distinct location within the geographic area of the book. Brand-new stories by: Michael Connelly, Lori Roy, Ace Atkins, Karen Brown, Tim Dorsey, Lisa Unger, Sterling Watson, Luis Castillo, Sarah Gerard, Danny López, Ladee Hubbard, Gale Massey, Yuly Restrepo Garcés, Eliot Schrefer, and Colette Bancroft. From the introduction by Colette Bancroft: Ask most people what the Tampa Bay area is famous for, and they might mention sparkling beaches and sleek urban centers and contented retirees strolling the golf courses year-round. But it's always had a dark side. Just look at its signature event: a giant pirate parade. Not only does Gasparilla honor the buccaneer traditions of theft, debauchery, and violence; its namesake pirate captain, José Gaspar, is a fake who probably never existed. And if there's any variety of crime baked into Florida's history, it's fraud. From the indigenous residents who supposedly conned Spanish explorers seeking the Fountain of Youth through the rolling cycles of real estate scams that have shaped the Sunshine State for the last century or so, the place is a grifter's native habitat.

**Computer Processing of Sanskrit Nominal Inflections** Aug 03 2020 Computer Processing of Sanskrit Nominal Inflections: Methods and Implementation is the result of Research and Development (R&D) at the Master of Philosophy (MPhil) level at Jawaharlal Nehru University, New Delhi, India. The title of the dissertation was "Machine Recognition and Morphological Analysis of Subanta-Padas." The work, which is based on the reverse engineering implementation of Panini's Sanskrit Grammar, brings together new and original studies in the area of computational linguistics, language technology and natural language processing with reference to parsing Sanskrit nominal inflections. On the surface level, Panini has defined rules in a forward looking generative fashion which makes reverse analysis necessary for parsing. Since parsing inflections is the first basic step towards complete analysis, the present work has relevance for any larger system that may evolve in future.

Gilt Dec 07 2020 Poetry. Asian & Asian American Studies. Women's Studies. "To read GILT is to open windows steamed with bright and exacting language, worlds where a 'cobra is a garland—no, the cobra / is a man's knuckles, a girl's hair clumped / between them.' Shirali's tough-tender debut embroiders lavish Indian weddings and Diwali festivals with the reckonings of a relationship's end. The rich wisdom you glean from the powerful pages of GILT will leave you spent and enchanted." —Aimee Nezhukumatathil "Raena Shirali is a poet who keeps asking what poems can actually do, and these formally inventive lyrics ask for activity, for travel. Her comment on culture, on identity, on justice is her comment on poetry. It is not fixed; and if it is, it shouldn't be. GILT is a book of danger and sarcasm and heart." —Jericho Brown

**Florida's Seminole Wars** Mar 10 2021 Years before the first shots of the Civil War were fired, Florida witnessed a clash of wills and ways that prompted three wars unlike any others in America's history. Among the most well-known of Florida's native peoples, the Seminole Indians frustrated troops of militia and volunteer soldiers for decades during the first half of the nineteenth century in the ongoing struggle to keep hold of their ancestral lands. While careers and reputations of American military and political leaders were made and destroyed in the mosquito-infested swamps of Florida's interior, the Seminoles and their allies, including the Miccosukee tribe and many escaped slaves, managed to wage war on their own terms. The study of guerrilla warfare tactics employed by the Seminoles may have aided modern American forces fighting in Viet Nam, Cambodia, and other regions.

Man'yōshū? (Book 18) Oct 29 2022 Book eighteen of the Man'yōshū? ('Anthology of Myriad Leaves') continues Alexander Vovin's new English translation of this 20-volume work originally compiled between c.759 and 785 AD. It is the earliest Japanese poetic anthology in existence and thus the most important compendium of Japanese culture of the Asuka and Nara periods. Book eighteen is the sixth volume of the Man'yōshū? to be published to date (following books fifteen (2009), five (2011), fourteen (2012), twenty (2013) and seventeen (2016)). Each volume of the Vovin translation contains the original text, kana transliteration, romanization, glossing and commentary.

**Language Contacts in Prehistory** Aug 22 2019 Every language includes layers of lexical and grammatical elements that entered it at different times in the more or less distant past. Hence, for periods preceding our earliest historical documentation, linguistic stratigraphy — the systematic study of such layers — may yield information about the prehistory of a given tradition of speaking in a variety of ways. For instance, irregular phonological reflexes may be evidence of the convergence of diverse dialects in the formation of a language, and layers of material from different source languages may form a record of changing cultural contacts in the past. In this volume are discussed past problems and current advances in the stratigraphy of Indo-European, African, Southeast Asian, Australian, Oceanic, Japanese, and Meso-American languages.

The Footprints of the Buddha Jul 02 2020 This book deals with Chinese and Japanese inscriptions (8th century AD) about the footprints of Buddha. The language of the Japanese inscription reflects the contemporary dialect of Nara. Its writing system presents a special interest being practically monophonic.

Man'yōshū? (Book 5) Jul 26 2022 This is the second volume to be published in the 20-volume set. It includes 114 poems (104 tanka, ten choka), traditionally considered to be the zoka genre, although some of them can be classified as benka, since they deal with death and sorrow. It also contains two poems in Chinese.

**The Seamless City** Sep 03 2020 HOW DO WE KEEP AMERICA GREAT? Rick Baker, former mayor of St. Petersburg, Florida, provides a compelling—and challenging—answer: by making American cities great. And great cities are built first of all through strong leadership. During his two terms in office, Rick Baker worked toward a clear, uncompromising goal: to make St. Petersburg the best city in America. He led a downtown renaissance, rebuilt the most economically depressed area of the city, attracted businesses, worked to reduce violent crime, and made public schools a city priority—all with measurable results. The Seamless City offers practical advice, based on his nine years of experience in City Hall, to show how every mayor and city council can make their city dramatically better. In *The Seamless City* you'll step behind the scenes of city government to learn: How maintaining basic amenities, like running water, requires constant vigilance—and sometimes tough decisions on the part of city leadership Why a vibrant downtown is essential to attract businesses and create jobs Why the most effective leadership is servant leadership How to find and implement the most effective solutions to a city's most challenging problems Why city government needs to regard the city as a seamless whole, with no section under-served or overlooked
